## Can Your Juicer Chew?: Green Star Elite Mirrors Our Body's Design

Green Star Elite is the Only Juicer Offering a Complete Mastication System, Resulting in More Nutrition

**Anaheim, CA** – Our mouth is the world's best juicer. We use our front teeth for cutting large pieces, canines for tearing and molars for grinding. When it comes to juicing equipment, a machine that most closely mimics our natural process is key to extracting maximum nutrition.

Based on our body's natural chewing process, the Green Star Elite by Tribest Corporation is the only juicer on the market that offers a complete mastication system that mirrors what our body does naturally. From hard roots (carrots, ginger) and fibrous stalks (celery, rhubarb) to even the toughest leafy greens (kale, wheat grass), this superior juicer extracts while protecting even the most delicate of vital nutrients.

Backed by a 12-year manufacturer's warranty, the Green Star Elite superior juicer features:

- 24 "teeth," including patented pocket recesses that act like our incisors to process harder vegetables more efficiently and easily while keeping enzymes intact.
- 110 revolutions per minute (similar to our chewing speed of 100-120 times per minute) to prevent air bubbles that degrade (oxidize) the nutritional value of the juice.
- An exclusive low-speed, heavy-duty twin gear impeller press system that operates with minimal friction, heat and noise, preserving even the most delicate nutrients.
- HD Jumbo Twin-Gear Juicing Technology that uses a 3-stage process (crushing, mixing, and pressing) to produce higher juice yields and enhance the nutritional value of every drop.
- Exclusive magnetic and bioceramic technology (Far Infra Red or FIR) to help delay oxidation and stabilize the liquid, making the nutrients in the juice last up to 72 hours in the refrigerator compared to 15 minutes with a centrifugal juicer.

In addition, the Green Star Elite features special cutting points on each of the gears, allowing it to extract juice more efficiently and to handle fibrous vegetables like celery without getting tangled or clogged. It also features an outlet adjusting knob, which allows the user to easily adjust the amount of pressure that is exerted inside the juicing chamber to effectively handle a wider variety of produce without jamming or clogging. On top of its unique functionalities, the Green Star Elite is also easy to clean and assemble, featuring automatic pulp ejection for continuous juicing and easier clean up.

Shared by Tribest Founder Jae Choi, "Juicing supplies an enormous amount of nutrients to the body and improves overall health and wellness. While other juicers are listed as masticating juicers, they are

missing important design features necessary to unleash every drop of nutrition from fresh produce. The process is similar, but they don't have all the teeth!"

The Green Star Elite easily juices most fruits, herbs and vegetables; grinds nuts, seeds and soaked grains; and works as a food mill for the preparation of baby foods, sorbets and nut butters. The best-selling Green Star Elite is available for purchase online for an SRP of \$629.

### **About Tribest® Corporation**

Tribest® Corporation is a leading designer, OEM manufacturer and marketer of a broad range of branded, high-quality small appliances designed to maintain a healthy lifestyle. Founder Jae Choi leverages innovative technology and his years of industry expertise to bring consumers effective and affordable products that make healthy living easy. Brands under the Tribest banner include: Green Star® juicing system, Solo Star®, Z-Star® manual juicer, CitriStar®, Sedona® raw food dehydrator, Humio® humidifier, Tribest Personal Blender® single-serving blender, YoLife® yogurt maker, Soyabella® soymilk maker, GlasLife® storage containers, FreshLife® automatic sprouter, Hawo's® and Wolfgang® fresh grain mills, Choisons® cutlery, SunJewels® Organics snacks, and Fruitstar® and Slowstar® juicers. For additional information about Tribest Corporation and products, visit [www.tribest.com](http://www.tribest.com) or call (888) 254-7336. Also find the company on [Facebook](#).
